

ARS-ES660M

Κολλητήρι Αερίου χωρητικότητας 15ml για λειτουργία 60min και βάρος 162gr.

- Manufacturer: ARIES
- Type of soldering iron: gas
- Kind of gas: butane
- Tank capacity: 15ml
- Operating modes: heating up with hot flame, hot air soldering, soldering and desoldering by means of a tip, use of hot knife
- Tip shape: conical
- Tip dimensions: 1.6mm
- Soldering iron length: 250mm
- Soldering iron weight: 162g
- Soldering equipment features: piezoelectric lighter
- Air flow temperature: 450°C
- Nominal life: 60min
- Soldering iron temperature range: 200...400°C
- Standard equipment: blow nozzle ARS-A-BR, gas soldering iron, protective cap, tip grot ARS-A-016
- Gross weight: 189.77 gr
