

1PK-202A/1PK-202B

17 PCS Offset Ratchet & Socket Drivers Set

This offset ratchet screw and socket driver set comprised six hexagon sockets manufactured from good quality carbon steel, correctly hardened, tempered and chrome plated. The screwdriver has a 1/4" hexagon drive to accommodate the ten 1/4" hexagon bits which are manufactured from Cr-V steel. Correctly hardened and tempered with a shot blasted finish. Also featured on the driver is a 1/4" sq. Drive male head for driving 1/4" square drive sockets.

Work easy in a space limited area.

Double end design and direction switch for clockwise or counter-clockwise.
