

ViPRO CP3 CONTROL PANEL

CP3 is a Multi-functional Control Panel that can be connected to ViPRO Mobile DVR via din-aviation connector. CP3 can also be used as a common monitor to check the video in QUAD view or full-screen from each camera (by pressing the button 1/2/3/4 respectively for camera 1/2/3/4) and access Mobile DVR GUI (Graphic User Interface) for system configuration.

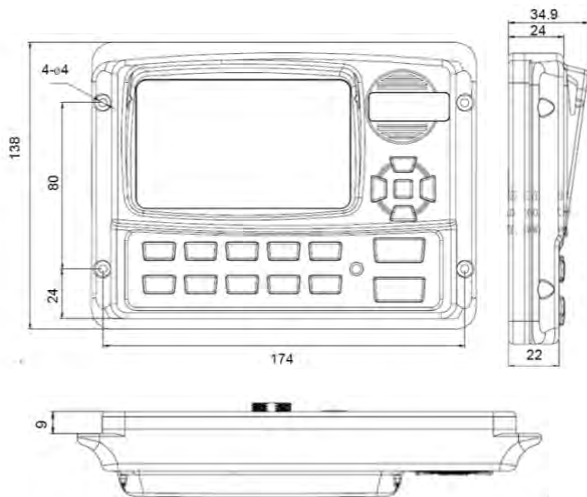

CP3 supports Station Announcement (with built-in amplifier) and RFID while bridging the communication between the central (CMS) and the driver by intercom function. The Central and the driver can talk with each other directly (with voice announcer) and the messages sent from Central to the driver can be displayed in CP3 and CP3 can speak it out for driver's hearing (TTS: Text to Speech).

Key Features

- 4.5" TFT monitor
- Station Announcement (Manual and automatic)
- Text-to-Speech function
- RFID
- Built-in amplifier
- Access to DVR GUI configuration

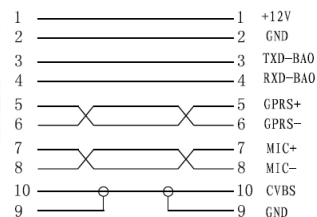

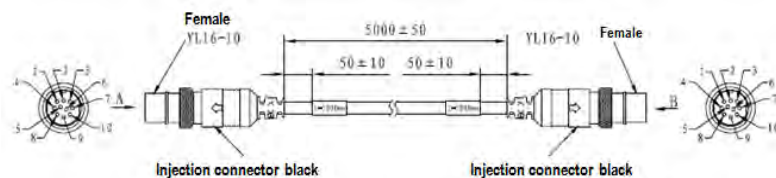

Dimensions

(unit: mm)

Technical Specifications

Product series	CP3 (Multi-functional Control Panel)
Connector	Din-aviation connector 10 pins
Connector Material	Metal (injection)
Cable	PVC raw material
Voltage Input	+12V
Cable Diameter	6.5mm
Monitor size	4.3" (Diagonal) TFT monitor (Thin Film Transistor)
Monitor Resolution	480*3(RGB)*272
Dimension	Panel: 174*138*34.9mm Cable: 5000mm

Voice Announcer

Cable Specification:

NON-UL[20AWG*2C+28AWG*2C+28AWG*2P+(26AWG*1C+AL+B)+AL]*1C, PVC, Black, OD: 7.5±0.2mm

Din-aviation connector: YL 16-10, 10PINS female
