

ViPRO LED Display Panel

All ViPRO Mobile DVRs have the LED on the front panel to show the MVR working status. But when the Mobile DVR installed in the vehicle, it is not easy to check the LED on the front panel. This LED Display Panelpanel with 6 LEDs for easier MDVR working status checking. Any of the LED flash will indicate the corresponding status.

Key Features

- Connect with Mobile Digital Video Recorder for driver to check the Mobile DVR system working status easily.
