

ZHUHAI ROULE ELECTRICS CO., LTD

Dual-way intercom system for counter

RL-9908

Suitable for the Bank, Securities Company, Hospital, Station where the Burglar-proof glazing is installed.

- Streamline design

The main unit has aluminum alloy shell, and the extension has built-in speaker. This system has simple connection for DIY operation.

- High quality

This system has top-quality speaker and high-sensitive microphone.

Especially the metal tube microphone is deal for the counter and the dual-way intercommunication.

- Good performance

The voice from this system is clear, and natural. There is a switch only for the volume control.

- Advanced technique

For this system, we adopted the advanced microcomputer from U.S.A.

Track-interlock technique ensures the stable performance without noise and side-tone.

- Definite instruction

The indicating lamp shows the track's working status.

- Simple operation I

Easy for dual-way intercommunication without pressing button.

- Simple operation II

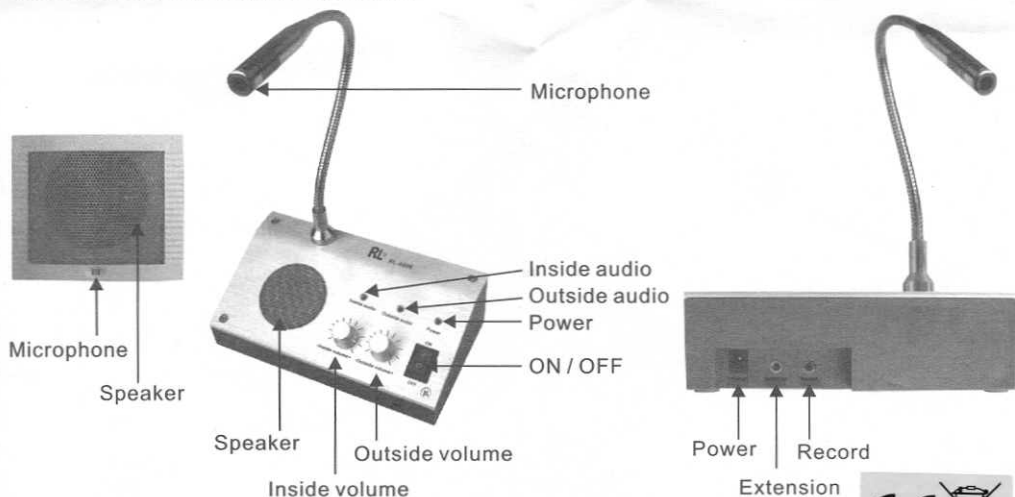

This system has two knobs to adjust the inside and outside volume. When the indicating lamp for audio turns green, the intercommunication could begin.

- Simple operation III

You could record the voice through record jack.

- Best choice

It is suitable for the Bank, Securities Company, Hospital, Station where the security glazing is installed. Best choice for your company.

Feature:

- Dual-way intercommunication
- Slim fit design of speaker
- Anti-interruption and noise
- Dual-way audio record
